The Best Time

To buy anything is the time you need it, because you then know exactly what you want.

The weather is now cold, and you ought to have just exactly what is necessary to properly warm your home.

The best time to buy Stoves is right now, because we will not keep a single Heater over to next season, and have, therefore, cut prices all the way down to a full Nickel-Timed Self-Heater, with inside glass doors and nine-inch fire pit, selling for \$40.00, set up your home, and get for you to start the fire. This is a regular \$110.00 value.

We also have a line of fine Western Heaters, in both base-burners and hot-burners, that will heat four rooms easily with almost half the amount of coal.

What this means. If you now have two or four separate fires, and you use eight tons of coal at \$4.00 a ton, you are paying \$32.00 for your fuel. If you now have one of our central base-burners, using only five tons, you save three tons of coal—that is, \$20.00, making \$12.00 in two seasons only you save in the price of coal alone \$20.00—enough to pay the entire cost of the stove, besides the annoyance of tending four fires.

Come in and let us talk over your heating troubles.

Remember, every Heating Stove we have must go—every one of them—and we start cutting prices right now.

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, liver complaint, torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a good remedy for all chronic or long-standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry, Golden Seal root, Bloodroot, Sassafras, Mandarake root and Queen's Root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Medical College, Philadelphia; Prof. Parry, of Bennett Medical College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. W. C. Armstrong, D. of Baltimore; Prof. S. S. Williams, M. D., of New York; and scores of others equally eminent in their several schools of practice.

The Golden Medical Discovery is the only medicine put up for sale through druggists or like purveyors that has any such professional endorsement worth more than any number of ordinary testimonials. Open public opinion is for it. It is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol, and is pure, triple-refined glycerine being used in the cure of all stomach as well as bronchial, throat and lung affections. The use of it in such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. A booklet of extracts from endorsing its merits mailed free on request. Address Dr. E. V. Pierce, Buffalo, N. Y.

He thinks they could be much better employed in making buckets, swabs, mattresses, boat fenders, etc., for the service, which would be as good, if not better, than the purchased articles, besides being cheaper. Colonel Kelton was the official delegate of the Navy Department to the recent congress of the National Prison Association, the conclusion of the experts at which was that employment of prisoners was absolutely necessary to prevent insanity.

"Patrons' Day," set aside by the School Board for parents and friends of the children to visit the Manchester public schools, was a great success, a large number of visitors being present to see the work being done by the pupils. Though the officials have every reason to feel encouraged by the interest shown by the patrons, yet there are many who did not avail themselves of the opportunity to be present. It is to be hoped that those who were present will repeat their visit in the near future, and that those who have not yet visited the school will do so later.

The doors of the school are open at all times for friends to come and go whenever they have the opportunity.
